

DUANE STEWART

IT & Cyber Security Professional | Army Veteran | Community Advocate

BIOGRAPHY

Mr. Duane Stewart is an IT and Cyber Security professional and proud 21-year Army veteran dedicated to leadership, service, and community empowerment. Through his military and professional experience, Duane has developed a strong commitment to helping others, promoting education, and building safer, stronger communities.

With over two decades of military service, Duane brings discipline, integrity, and a mission-driven mindset to every area of his work. His background in information technology and cyber security has equipped him with valuable technical expertise, problem-solving skills, and a passion for educating others on awareness, preparedness, and personal growth.

Duane is committed to giving back by helping individuals make informed decisions and connect with resources and opportunities that support their success. He believes community work is about uplifting others, building meaningful relationships, and leading by example.

Through his service and community involvement, Duane continues to promote growth, responsibility, unity, and positive change.
